Booker (row 2 – 6)

<code><booker></code>	The section contains information about the person who made the reservation.
<code><affiliations></code>	Should the booker be on business, you can find more information in the following section.
<code><affiliation name="CompanyNameHere" number="1234567890" numbertype="vat" type="company"/></code> <code></affiliations></code>	This section contains information about the name of the corporate company of the guest and VAT /tax if provided.
<code></booker></code>	The section about the person who made the reservation ends here.

Flags (row 7 -11)

<code><flags></code>	Following flags are only included if applicable.
<code><flag name="booker_is_genius"/></code>	Booker has a genius status. Genius is a program where Booking.com reward our most frequent bookers by offering them 10% off our best available rates, for a set of properties worldwide.
<code><flag name="no_address_reservation"/></code>	Booker did not need to provide an address.
<code><flag name="no_cc_reservation"/></code> <code></flags></code>	Booker did not need to provide a credit card.

Guest (row 12 -21)

<code><guests></code>	The section contains information about the guest(s) who will stay at the accommodation.
<code><services></code>	Following services are only included if applicable. A full list of services is available at the end of this document.

<pre><service name="GF_3"> <text>Priority late check out</text> </service> <service name="GF_4"> <text>Welcome drink</text> </service> </services></pre>	<p>What does GF_3 stand for? GF_3 is a code. Every service corresponds to a code. Ideally the provider should be mapping the code GF_3 to the list of services available to give it to the accommodation.</p>
<pre></guests></pre>	<p>The section about the guest(s) who will stay at the accommodation ends here.</p>

Payment (row 22 – 27)

<pre><payer></pre>	<p>The section contains information about the payment of the reservation. Booking.com can now take payments from the guest on behalf of the property and specifying in the next tags how: via bank transfer or via Virtual credit card.</p>
<pre><payments> <payment amount="92.37" currency="EUR" payment_type="payment_via_Booking.com" payout_type="Booking virtual credit card / BankTransfer"/> </payments></pre>	<p>In case of no prepayment needed for the booking, the payment section will not be included. (only tag </payments> will be transmitted)</p>
<pre></payer></pre>	<p>The section about the payment of the reservation ends here.</p>

Room (row 28 – 31)

<pre><reservation></pre>	<p>New attributes are located in the existing price tag. However, only included if applicable.</p>
<pre><room> <price date="2016-02-06"</pre>	<p>Existing attribute: date of reservation.</p>

genius_rate="no"	New attribute: includes true if the rate(s) is genius and the rate(s) code. In the case of multiple nights the rate ID's will be separated by a comma. Genius rates are discounted rates offered to a closed user group who are eligible for this discount provided by the accommodation.
rate_id="130435"	Existing attribute: parent rate (mapped rate). This is the rate mapped from where the discount is taken.
rewritten_from_id="6535032"	New attribute: child rate ID. This is the rate not mapped on which the discount is applied.
rewritten_from_name="Non Refundable"	New attribute: child rate name.
>92.37</price>	Existing value: price.
</reservation>	The section about the room of the reservation ends here.
